## SCOPE OF APPLICATION:-

- This Non-Stick Surgical Bipolar Forceps mainly used to bipolar subtle coagulation in microsurgery, neurosurgery, spine surgery, and medical cosmetology. It simplifies the tiresome and tedious job of cleaning the forceps after surgery. The unique design of the silver alloy tips includes a proprietary technology that reduces the molecular bonding force and helps eliminate hot spots on the silver alloy forceps tips.

## FEATURES:-

- Non-stick bipolar are made with a special silver alloy & therefore prevent tissue from sticking
- Light closing force causes less fatigue over time
- Noylon coating resists abrasion and provides superb insulaiton
- European fitting plug

## SATISFACTION GUARANTEE:-

- We are standing behind our Brand products with quality. If you are choosing **CLONMED™ BIPOLAR FORCEP**, it means you are choosing long-lasting, durable surgical equipment because this product is built with superior Titanium.
