jupiterhealthcare.t@gmail.com 

Polymer ligating surgical clips are manufactured using high quality materials. Intergated teeth on the polymer clip ensures secure ligation of tubular structures.

POLYMER

- Cold ligation device, preventing the propagation of heat to vessels and tissues
- Transparent radio
- Curved shape allowing a wide tissue grip
- Audible “Click” and tactile feedback to confirm clip lock

AVAILABLE SIZES

- MEDIUM (Green)
- LARGE (Purple)
- EXTRA LARGE (GOLD)
